

## **The effect of the Premium on pupils' PE participation and attainment**

Pupils participate in lunchtime activities which increases the number of pupils involved in PE activities during the lunch break. Our Junior Sports leaders deliver sport sessions for younger pupils. The school will also be entering a number of sports competitions this year, including tournaments aimed specifically at SEND pupils.

Qualified football, dance and rugby coaches are employed by the school to deliver P.E and after school club sessions and we have also recently become part of the Mile-a-day scheme. During a whole of school survey, it was found that:

80% of children have attended a school club this year

55% of children have attended more than one school club this year.

23% of children have taken part in inter-school competitions this year.

54% of children attending after school clubs are girls and 46% are boys.

79% of children enjoys sport related games at break and lunchtime.

90% of children enjoy P.E sessions and school sports clubs.

83% of children exercise regularly outside of school.

85% of children think a good range of activities are offered in P.E sessions and after school clubs.

90% of children believe teamwork and fair play skills are taught in P.E sessions

91% of children believe they know which foods are healthy and which foods are unhealthy.
