

In Science at Willow Fields ...

We get to carry out experiments and investigate.

We learn about being scientists and famous scientists.

We are encouraged to work as a team both indoors and outdoors.

We carry out our own research using books and iPads.

Children are given the opportunity to explore their own ideas.

Children are able to discuss and develop their own scientific questions.

It is linked to real experiences that they can connect to.

Children discover things they didn't know existed.

All children will be encouraged to develop their natural curiosity in science with a hands-on approach and inquiry based learning which will inspire them to explore science in and outside of school exposing them to careers and providing them with the challenge and opportunity to discuss and explore these ideas.
